Type 32 è un progetto per sua natura versatile, in grado di interagire con l'ambiente ed i suoi abitanti e di modificarsi nelle forme e nei colori. Come il legno, anche Type 32, nel registrare il passare del tempo, restituisce una superficie dall'aspetto vintage, un effetto "vissuto" tipico dei pavimenti legati alla nostra memoria. Questa peculiarità rende la collezione originale ed esclusiva, con una personalità irripetibile. In Type 32 i mutamenti rincorrono e ricordano il tempo trascorso.

Type 32 is a design which, due to its versatile nature, is able to interact with the environment and its inhabitants, as well as change in terms of shapes and colours. Like aged wood, Type 32 also gives an area a vintage look, a "lived in" effect which is typical of floors with a touch of nostalgia. This peculiarity makes the collection unique and original, with a special personality. With Type 32 the changes take us back and remind us of times gone by.

Le rappresentazioni fotografiche e descrittive dei prodotti di Lea Ceramiche riportate sui depliant, sui cataloghi e sugli altri materiali pubblicitari dell'azienda, sono puramente illustrative dello specifico prodotto rappresentato.

Si precisa infatti che, successivamente alla pubblicazione dei materiali pubblicitari dell'azienda, il prodotto potrebbe subire leggere modifiche nel relativo processo produttivo, al fine di renderlo tecnologicamente migliore. Tali aggiustamenti tecnologici potrebbero determinare lievi differenze, anche estetiche e/o cromatiche, nel prodotto medesimo, con la conseguenza che lo stesso potrebbe risultare diverso da come rappresentato e/o illustrato e/o descritto nel materiale pubblicitario di Lea Ceramiche. Tali differenze non potranno essere in alcun modo considerate dall'acquirente un vizio e/o difetto del materiale ceramico stesso, bensì una caratteristica dello specifico prodotto.

Tutti i materiali ceramici che imitano pietre naturali presentano differenze di colore e sfumature che non potranno in nessun modo essere considerate quale difetto del prodotto, ma bensì una qualità caratteristica di tali tipi di produzione.

The photographs and descriptions of Lea Ceramiche products given in the brochures, catalogues and other corporate advertising materials aim merely to represent the specific products.

After the publication of the corporate advertising materials, the products may be slightly modified as a result of technological improvements. Such technological modifications may lead to slight differences in appearance and/or colour of the products, which may therefore differ from the representations, illustrations or descriptions given in the Lea Ceramiche advertising materials. Such differences shall in no way be deemed to be faults and/or defects in the ceramic materials, but rather intrinsic features of the specific products.

All ceramic materials that imitate natural stone differ in color and nuances, and this cannot in any way be considered as a product defect, but rather a characteristic of these types of products.
