Poliform

Poliform presenta in anteprima i nuovi prodotti dedicati alla zona giorno e alla zona notte. Divani, poltrone e sedute dove design e comfort trovano il perfetto equilibrio; tavoli, tavolini e madie dall'estetica essenziale; due nuovi letti che celebrano il legame tra i diversi ambienti della casa. Uno stile che sempre di più diventa lifestyle, anche grazie a pezzi decorativi come il paravento e lo sgabello, un pezzo di rottura dall'aspetto scultoreo e contemporaneo che guarda al mondo dell'arte.

Poliform presents a preview of the new products dedicated to the day and night areas. Sofas, armchairs and chairs that strike the perfect balance of design and comfort. Tables, coffee tables and sideboards with an essential design; two new beds that celebrate the link between different environments in the house. A style that increasingly becomes lifestyle, also thanks to decorative pieces such as the room divider and stool, an element of rupture with a sculptural and contemporary look that nods to the art world.

A raccontare il punto di vista di Poliform sull'abitare contemporaneo sono Jean-Marie Massaud ed Emmanuel Gallina. Con il divano Brera, Jean-Marie Massaud riporta nel living la forza delle linee architettoniche. Linee morbide e curve caratterizzano invece la poltrona Kaori e lo sgabello Ube, un piccolo oggetto prezioso come un'opera d'arte. Lineari ed essenziali le madie della collezione Aiko, così come il paravento Hima, complemento trasversale capace di creare angoli d'intimità in qualsiasi ambiente. La zona notte di Massaud è all'insegna della semplicità con il letto imbottito Yume. Forme organiche e curve delicate sono invece la cifra stilistica di Emmanuel Gallina, che con Curve celebra la capacità di Poliform di creare un legame stilistico tra i diversi ambienti della casa.

Jean-Marie Massaud and Emmanuel Gallina express Poliform's point of view on contemporary living. With the Brera sofa, Jean Marie Massaud transports the strength of architectural lines into the world of interiors. Soft, curved lines characterise the Kaori armchair and the Ube stool, a small precious object like an artwork. The sideboard in the Aiko collection is linear and essential, and so is the Hima room divider, a versatile piece of furniture that is able to create intimate corners in any environment. The Massaud night area has a simple design with the padded Yume bed. Organic forms and delicate curves characterise the style of Emmanuel Gallina. With Curve, the designer celebrates Poliform's ability to create a style that brings together the different areas of the home.

BRERA

Jean-Marie Massaud disegna un paesaggio domestico dalla forte connotazione architettonica, il cui protagonista è Brera, un sistema di divani dove l'eleganza si esprime attraverso un segno orizzontale, pulito e contemporaneo. Diverse le conformazioni possibili, da quella lineare classica a quella curva, destinata agli spazi più ampi e alle aree lounge. Altissimo il livello di comfort, grazie a cuscini che trasportano la tecnologia del riposo nel living, mentre la sartorialità è enfatizzata dai dettagli couture in cuoio e dalla nuova selezione di tessuti, che fa risaltare le cuciture come particolari preziosi.

Jean-Marie Massaud designs a domestic landscape with a strong architectural quality. Its protagonist is Brera, a sofa system where elegance is expressed through a horizontal, clean and contemporary design. Different configurations are possible, from the classic linear one to the curved one, best suited to larger spaces and lounge areas. The level of comfort is extremely high, thanks to pillows that embody relaxation-enhancing technology. A sartorial quality is emphasised by couture details in hide and a new selection of fabrics, which make the seams stand out like precious details.

MUSH

Mush è un sistema di tavolini dall'estetica essenziale, pensato per accompagnare con discrezione il divano Brera. Il piano è disponibile quadrato o rettangolare, sempre con angoli stondati, oppure circolare, in diverse altezze e dimensioni. Nella versione in olmo nero, lo spessore del piano è il frutto di una lavorazione artigianale eseguita a mano. Nella variante tonda e alta, ideale accanto al divano, il tavolino è disponibile anche completamente rivestito in cuoio.

Mush is a coffee table system with an essential aesthetic, designed as a discreet accompaniment to the Brera sofa. With a choice of a square or rectangular top with rounded corners or a round top, it comes in different heights and sizes. In the black elm version, the thickness of the tabletop is the result of hand crafting. The round and tall version of the coffee table, which is ideal for placing next to the Brera sofa, is also available completely covered in hide.

KAORI

A fare da contrappunto al divano Brera, e in generale a tutti i divani della collezione Sofas che abbiano una forte connotazione architettonica, è la poltrona Kaori, caratterizzata da linee morbide e volumi generosi. Elegante nelle linee, la poltrona è molto sofisticata, essendo costituita da due scocche perfettamente integrate – quella esterna in cuoio, quella interna morbidamente imbottita e rivestita in tessuto o pelle. Al comfort visivo corrisponde quello della seduta, studiata per la massima comodità.

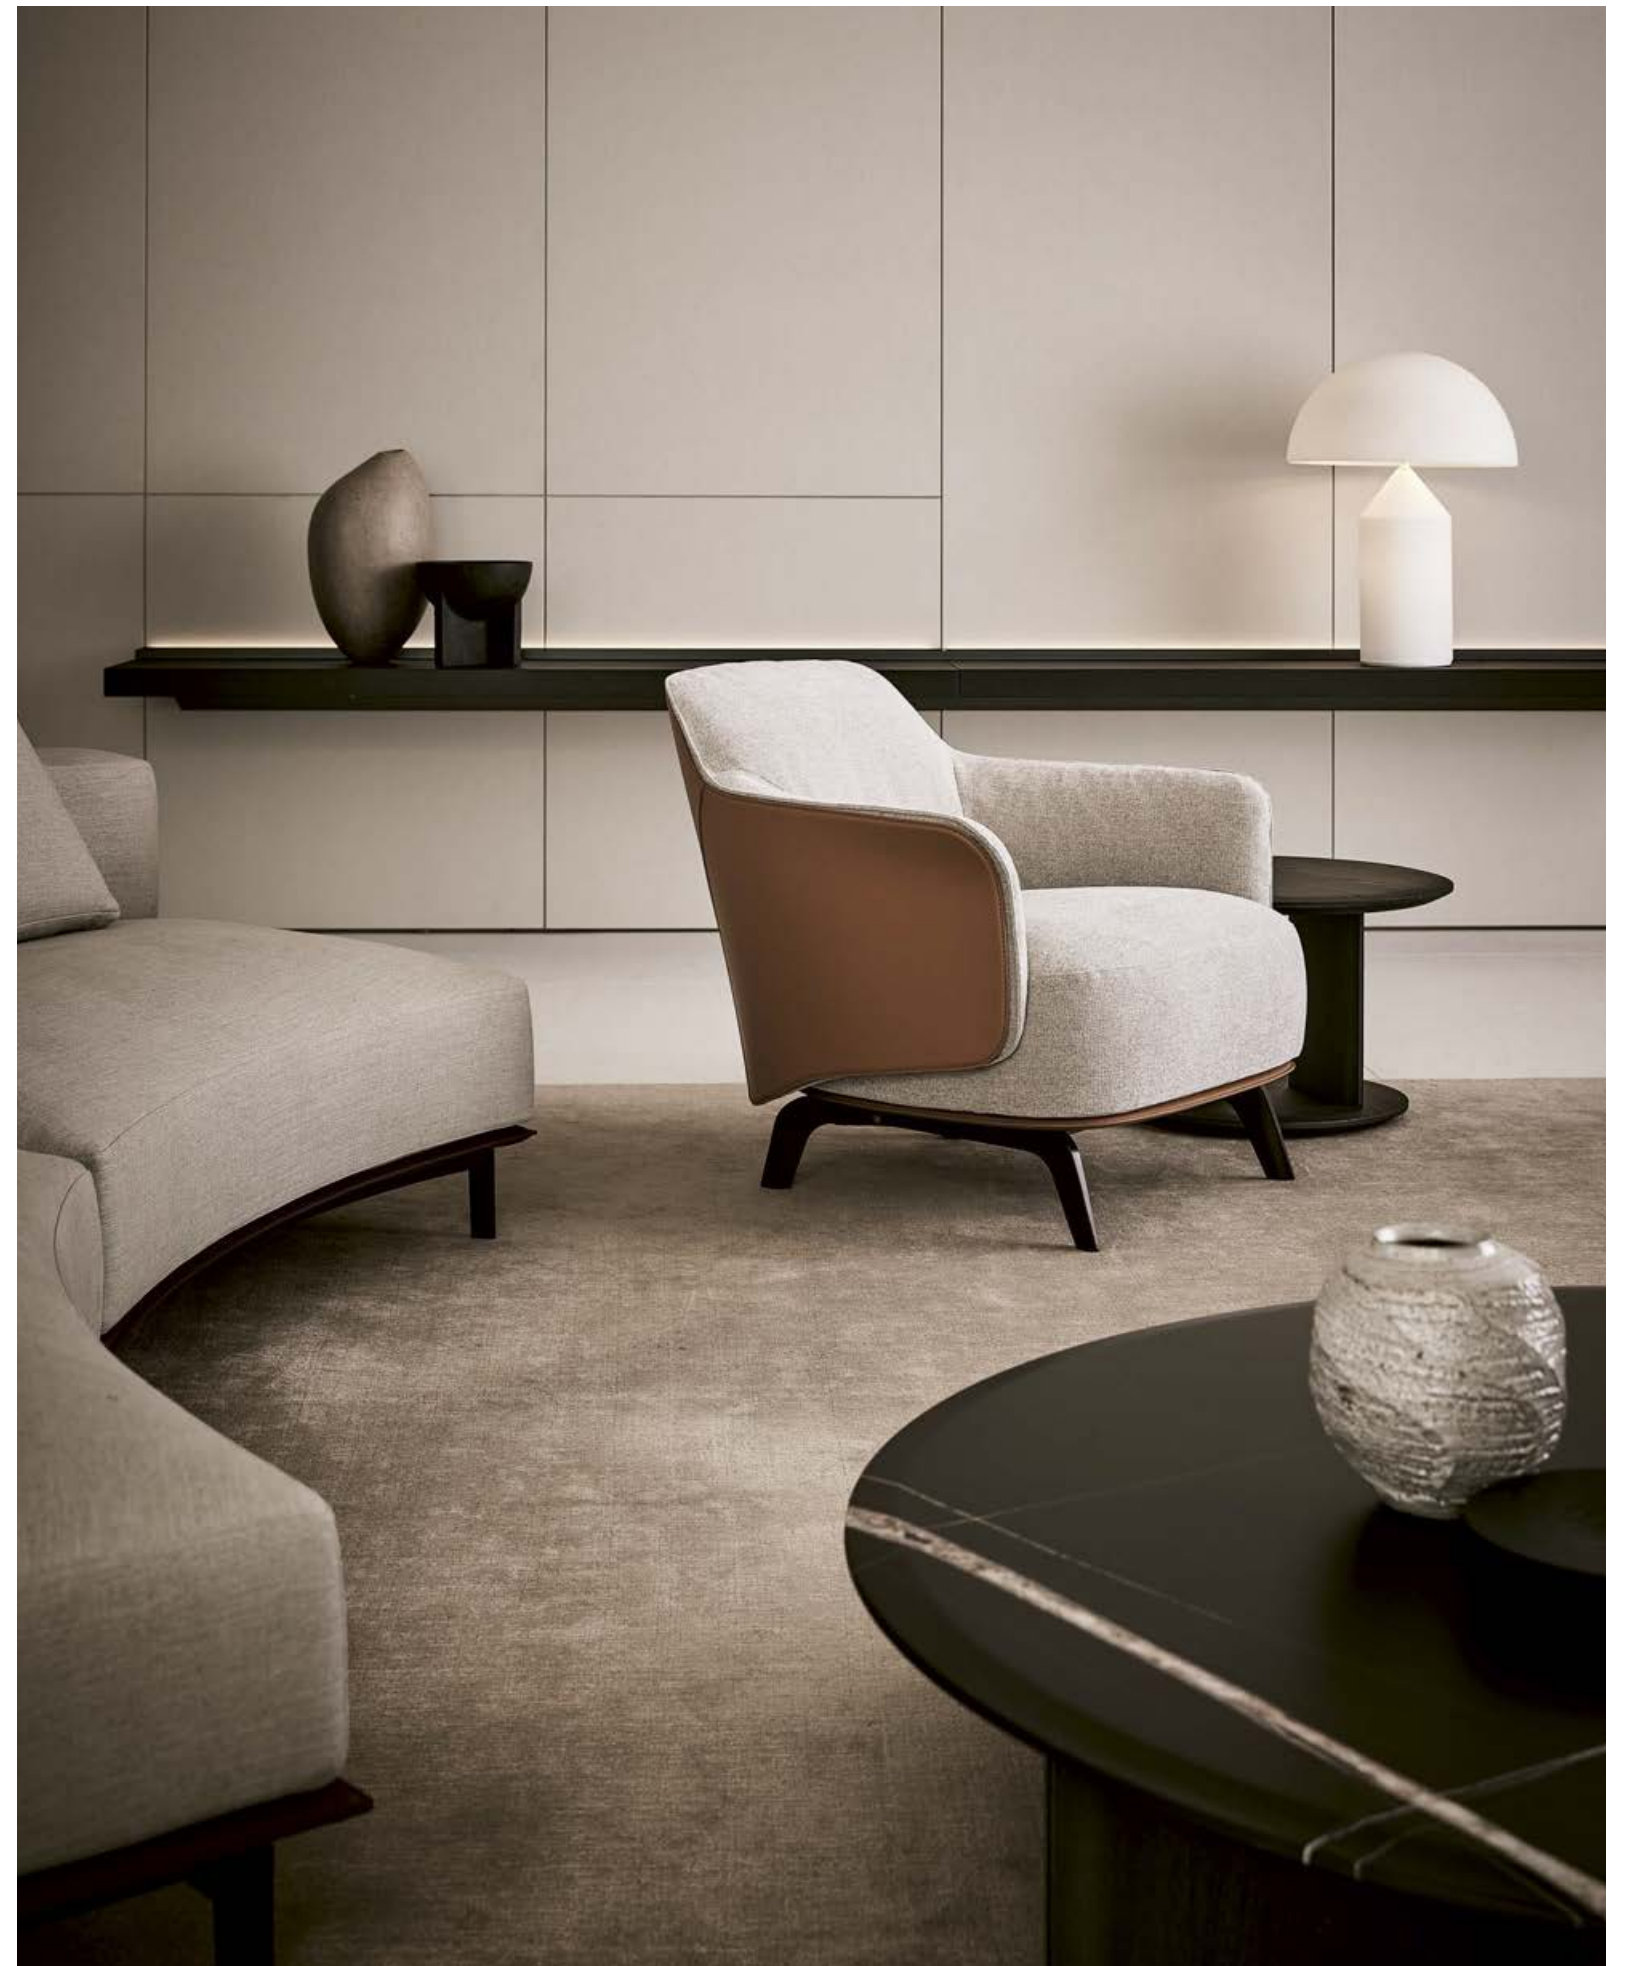

The Kaori armchair is a counterpoint to the Brera sofa, as well as to all the designs in the Sofas collection that have a strong architectural connotation. It is characterised by soft lines and generous volumes. Elegant and sophisticated, the armchair is made up of two perfectly integrated shells – the outer one in hide, the inner one softly padded and upholstered in fabric or leather. Its visual appeal is matched by that of the seat, designed for maximum comfort.

CURVE

La poltrona Curve riprende le linee morbide e la centralità della materia legno dell'omonima collezione. L'intuizione di Emmanuel Gallina è stata quella di alleggerire struttura e imbottitura rendendole essenziali, senza rinunciare al comfort. Dettaglio funzionale ma di grande appeal è la maniglia curva dello schienale, che rende interessante il lato posteriore della poltrona. Disponibile in diverse finiture e in un'ampia gamma di rivestimenti, Curve può assumere l'estetica desiderata – più classica o più moderna.

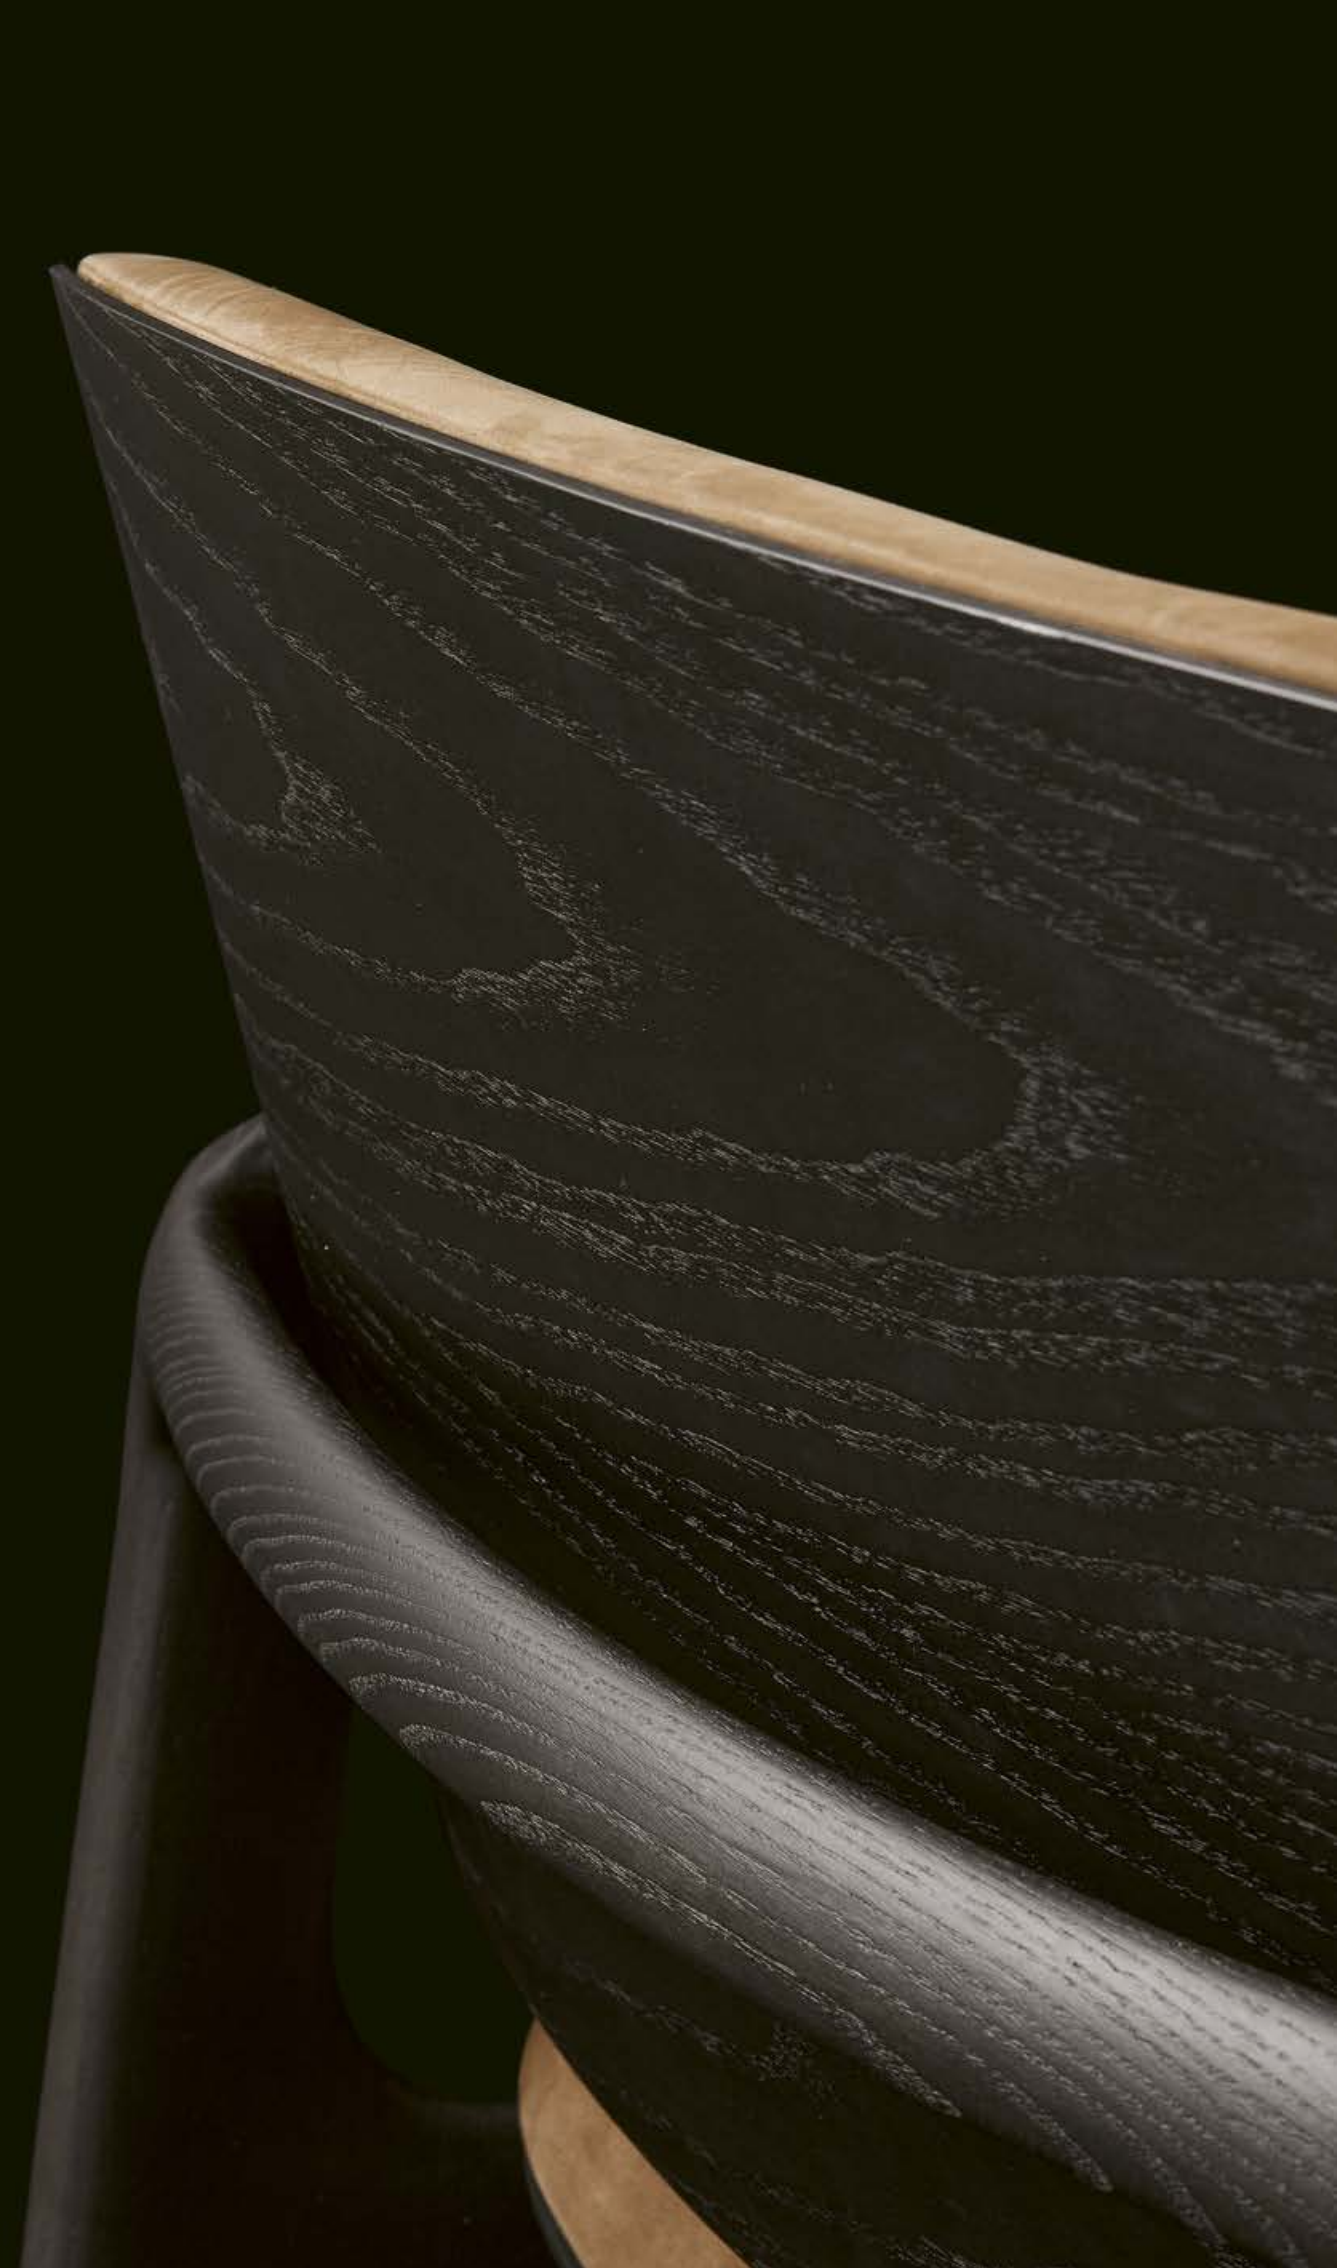

The Curve armchair recalls the main features of the homonymous collection: soft lines and the centrality of wood. Emmanuel Gallina's intuition was to lighten structure and padding, stripping them down to their essence, without sacrificing comfort. The curved backrest handle is a visually enticing functional detail, lending the back of the armchair great appeal. Available in different finishes and a wide range of covers, Curve can take on the desired mood – from classic to more modern style.

UBE

Lo sgabello Ube è un elemento di rottura, un'opera d'arte prestata alla funzionalità del living. Ispirato al seme del coco de mer, frutto tropicale dalla forma suggestiva e sensuale, lo sgabello è caratterizzato dalla conformazione concava, che diventa una comoda culla su cui sedersi. Radicale anche nella realizzazione, è costituito da un blocco di legno massello, nella classica finitura olmo nero.

NARA

La collezione Nara si amplia e accoglie due nuovi elementi: la panca e la consolle. Come il tavolino, di cui rappresentano la naturale evoluzione, sono realizzate in legno massello, con una lavorazione ispirata all'arte dell'ebanisteria. Panca e consolle sono complementi trasversali, per la zona notte o le aree d'ingresso, dove spiccano per la matericità solida ed elegante.

The Nara collection has been expanded to include two new elements: a bench and a console, which are the natural evolution of the coffee table by the same name. They too are made of solid wood, and crafted with a process inspired by the art of cabinet-making. The bench and console are versatile pieces: suitable for the bedroom or hallways, they stand out for their solid and elegant material quality.

HIMA

Essenziale, elegante e sensuale, il paravento è un complemento dal fascino antico eppure straordinariamente contemporaneo. Pur bidimensionale, è capace di creare uno spazio tridimensionale, come un elemento architettonico. Alle diverse altezze corrispondono diversi usi, da semplice séparé a protezione del divano, del letto o dell'angolo home office a vera e propria parete capace di creare uno spazio intimo e separato. Progettato da Jean-Marie Massaud, il paravento Hima si sposa alla perfezione con i prodotti della nuova collezione, in particolare con il divano Brera. Eleganti le finiture, in metallo verniciato e corda intrecciata.

Essential, elegant and sensual, the room divider is a piece with an antique yet extraordinarily contemporary charm. Although it is two-dimensional, it is capable of creating a three-dimensional space, as if it were an architectural element. Different heights lend themselves to different uses, from a simple screen to protect the sofa, bed or home office corner to a wall, capable of creating an intimate separate space. Designed by Jean-Marie Massaud, the Hima room divider is a perfect match for the products in the new collection, particularly the Brera sofa. It features elegant finishes in painted metal and woven rope.

AIKO

Aiko è un sistema di madie dalle linee essenziali e dai dettagli sofisticati. L'intuizione di Jean-Marie Massaud ha dato vita a un progetto che è un vero compendio del sapere aziendale. Ispirate alle antiche credenze, le madie sono sospese su un basamento con piedini, tutt'uno con le ante dai profili sagomati. L'attenzione al dettaglio è massima: dai ripiani che sembrano galleggiare all'interno del volume grazie ai reggipiani integrati all'illuminazione dall'allure sofisticata; dal piede centrale che diventa peculiarità estetica alla cerniera sviluppata ad hoc, cui corrisponde una preziosa placchetta metallica esterna. Particolari anche le finiture delle ante: oltre alla classica essenza, si aggiungono l'essenza effetto midollino e il vetro stratificato con interno in tessuto effetto lino.

Aiko is a system of sideboards with clean lines and sophisticated details. Jean-Marie Massaud's intuition has given life to a project that is a true compendium of Poliform's know-how. Inspired by ancient cupboards, the sideboards are suspended on a base with feet, in line with the doors with shaped profiles. Attention to detail is key: from shelves that appear to be floating inside the volume thanks to the integrated shelf supports to the sophisticated lighting; from the central foot that becomes an aesthetic feature to the hinge, developed ad hoc, that ends in a precious external metal plaque. The door finishes are also outstanding: in addition to the classic wood, there is a wicker-effect wood and a laminated glass version with a linen-effect fabric interior.

CURVE

Una sedia leggera ed elegante, che dietro l'apparente semplicità nasconde un'accurata lavorazione del legno massello. Nelle tre varianti – tutto legno, legno con sedile imbottito e legno con sedile e schienale imbottiti – il materiale è protagonista. Curve morbide e assottigliamenti ne slanciano le linee, ispirate al design moderno. Il risultato è una sedia classica eppure contemporanea, ideale abbinata all'omonimo tavolo.

Light and elegant, behind its apparent simplicity this chair hides an intricate crafting of solid wood. In all three variants – wood, wood with upholstered seat and wood with upholstered seat and backrest – the material is the protagonist. Soft curves and tapering slender lines are inspired by modern design. The result is a classic yet contemporary chair, ideally combined with the table by the same name.

SHINDO

La particolarità del tappeto Shindo è il disegno apparentemente in rilievo, ma dato in realtà dalla compresenza di due materiali, lana e lana e seta, che crea uno scenografico effetto ottico. Le fibre sono intrecciate a mano usando un telaio orizzontale, secondo l'antica tecnica tradizionale handloom. Perfetto complemento degli arredi Poliform, Shindo è disponibile nelle varianti grey, natural e celadon, nuance perfette da abbinare alla nuova proposta living di Poliform.

The peculiarity of the Shindo carpet is its pattern, which looks like a relief but is actually created by the contrast between two materials, wool and silk, which creates a spectacular optical effect. The fibres are woven by hand on a horizontal loom, according to the ancient traditional handloom technique. A perfect complement to Poliform furnishings, Shindo is available in grey, natural and celadon: nuances to match the latest designs in the Poliform catalogue.

NEW FABRICS

Una proposta che invita a interpretare il rivestimento come possibilità estetica e come veicolo di sensazioni visive e tattili. La nuova selezione di Poliform privilegia i tessuti materici, dal bouclé d'ispirazione haute couture ai jacquard di lino e viscosa dall'aspetto elegante e contemporaneo, spesso abbinati tra loro in un mix che nell'incontro tra basico e decorativo ha la sua forza. La scelta di fibre naturali certificate o provenienti da materiali rigenerati segue un'ottica di sostenibilità ed è in linea con un'idea di stile che nell'armonia tra le tonalità, nell'eleganza degli abbinamenti e nella qualità dell'esperienza esprime il suo carattere, la sua unicità e i suoi valori.

A new selection that interprets upholstery as an aesthetic possibility and a vehicle for visual and tactile sensations. The new Poliform fabrics focus on texture, from haute couture-inspired bouclé wool to linen and viscose jacquards with an elegant and contemporary look, often combined to create an enticing contrast of basic and decorative textiles. The choice of certified natural fibres or regenerated materials is not only about sustainability. It is also about an idea of style that expresses its character, uniqueness and values in a harmony of shades, elegant combinations and quality experience.
