La presentazione di 4 diverse strutture, Cemento-Roccia-Slate-Riga in 3 diversi colori, Perla-Grigio-Antracite e un decorato per colore, dà vita ad una collezione di 15 articoli in formato 20x20.

Strutture

Cemento - un classico della ceramica riproposto in un formato inusuale. Una struttura fortemente materica dove un cemento semi grezzo diventa quasi pietra.

Roccia - una superficie scagliata a rilievo che trasforma la ceramica in materia pietrosa.

Slate - dalla natura alla ceramica, la riproduzione delle naturali sfogliature dell'ardesia.

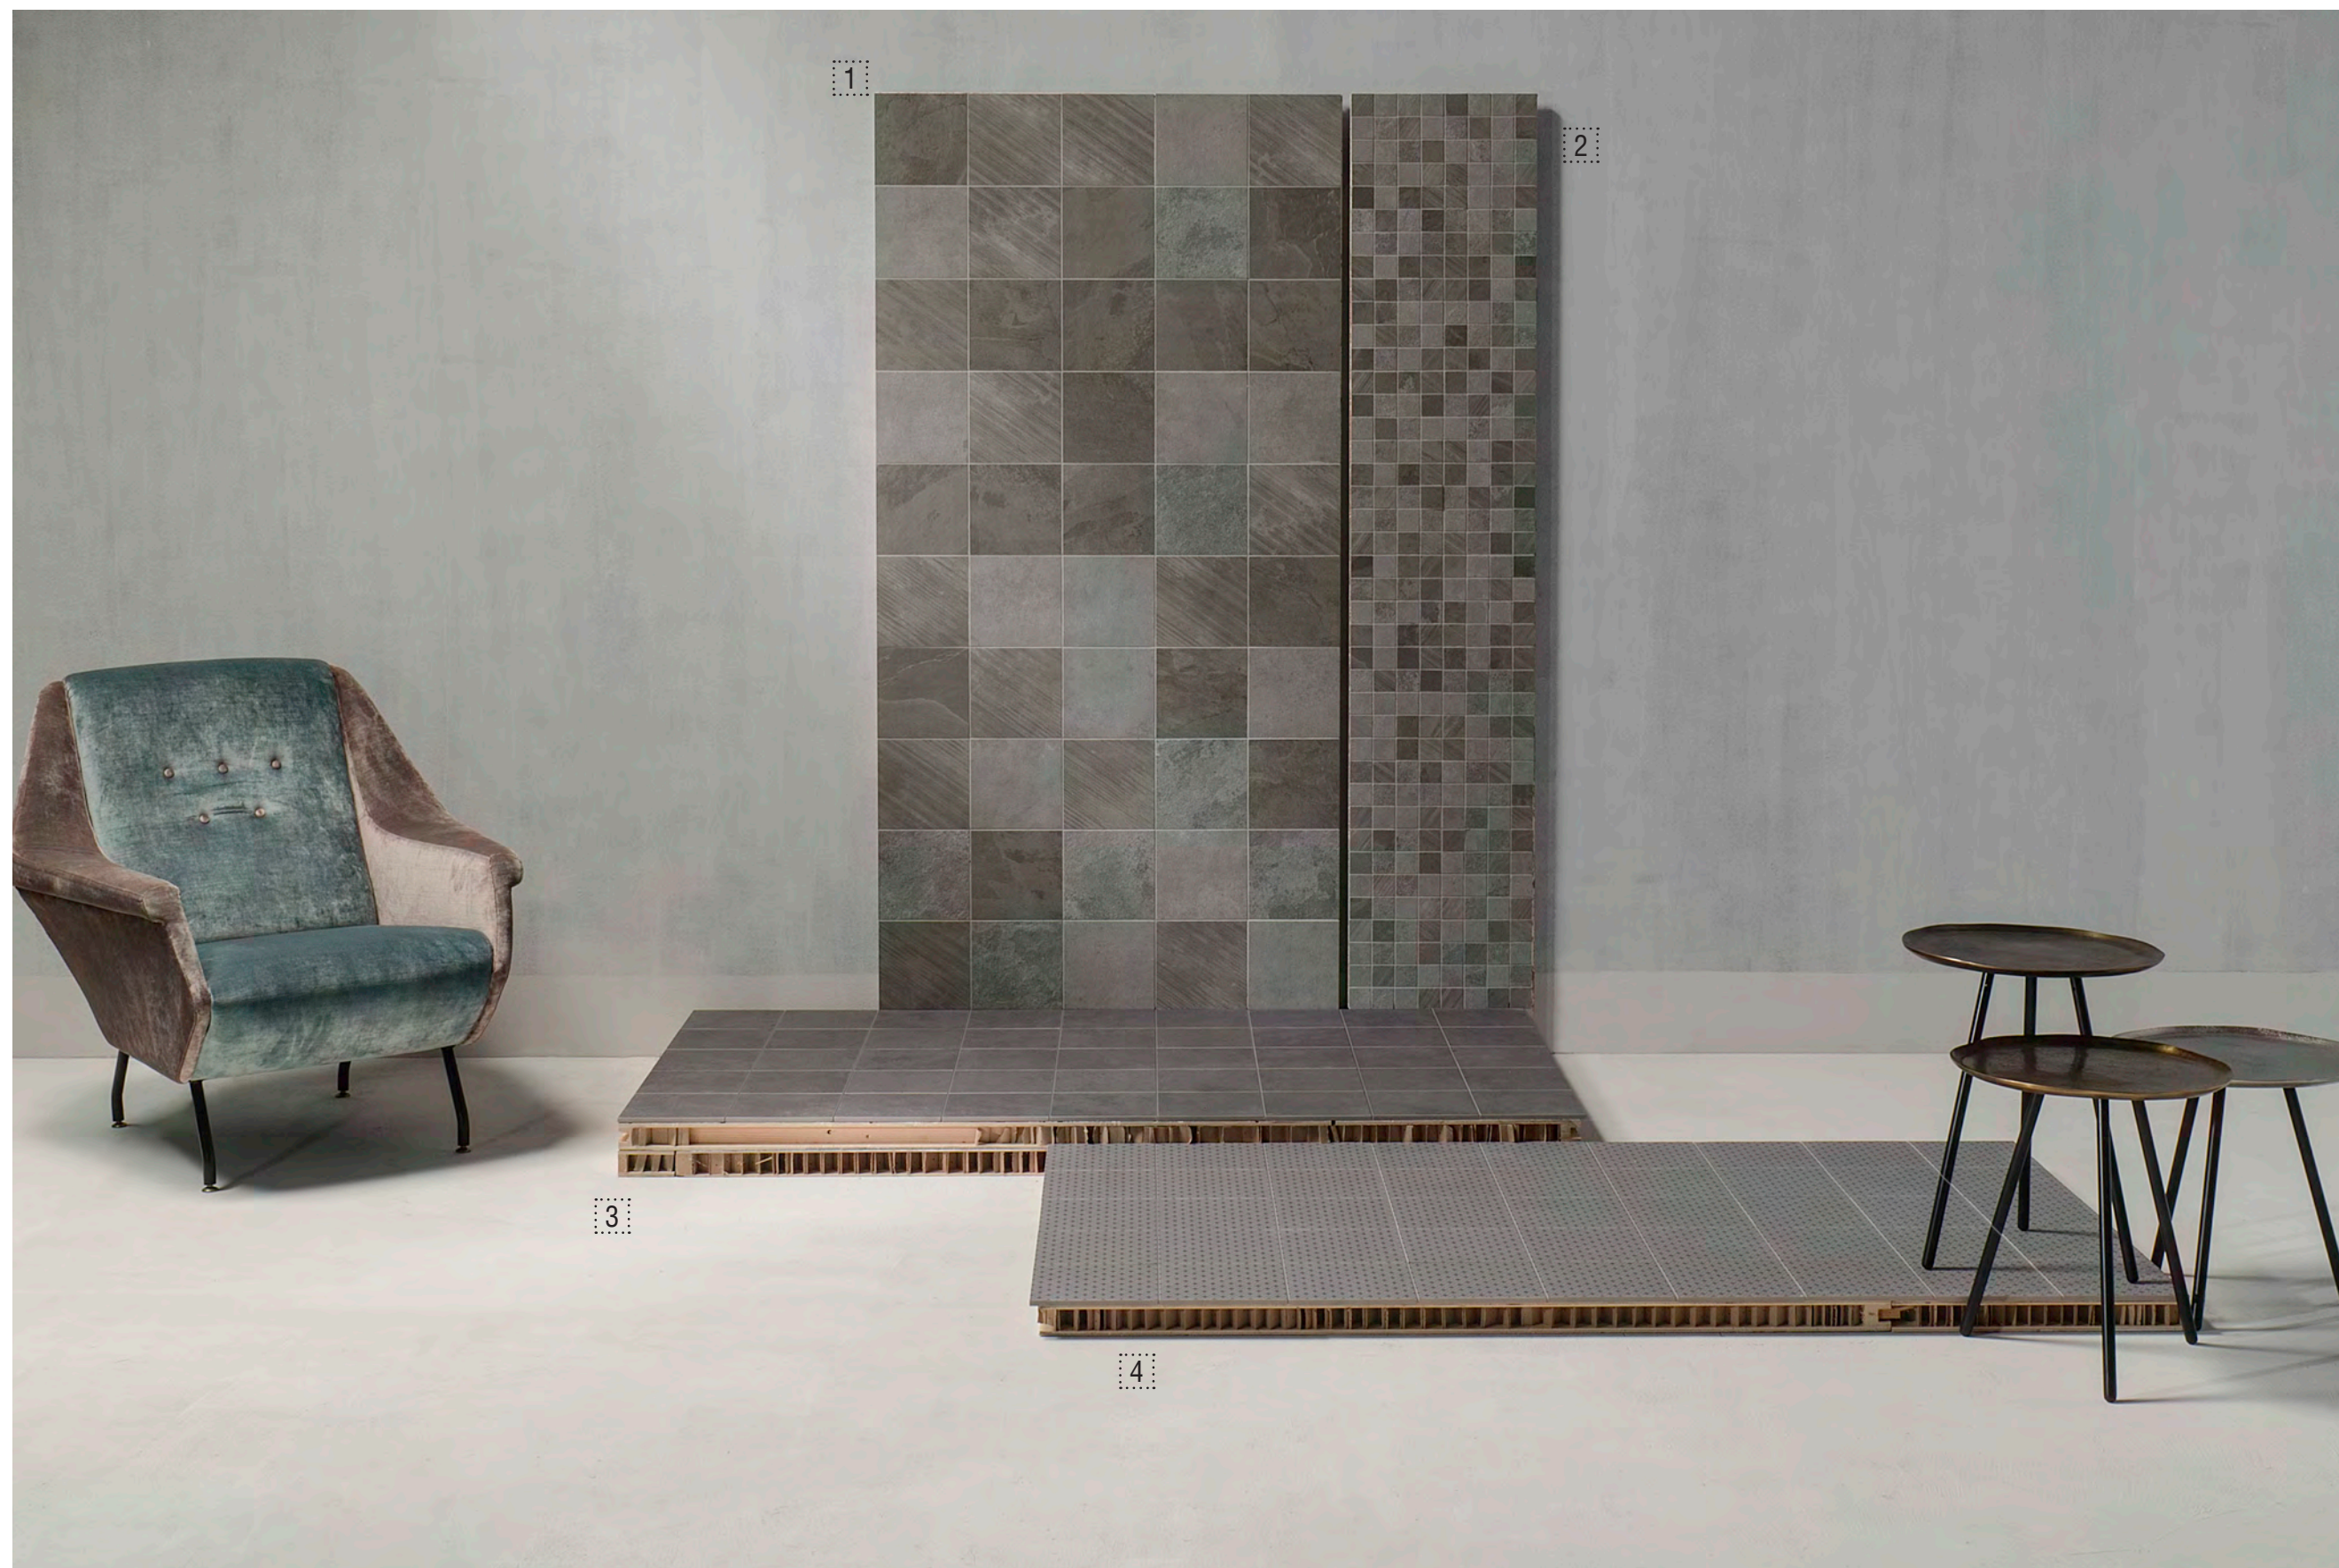

Riga - una struttura contemporanea a rilievo che solca in maniera irregolare la superficie creando una linearità che può essere vista in molteplici soluzioni di posa.

Colori

3 colori, Perla-Grigio-Antracite, che si caratterizzano a loro volta in 4 varianti cromatiche a seconda della struttura sulla quale si vanno ad esprimere, creando 12 diversi articoli.

Formato 20x20

Tutti gli articoli della collezione sono rettificati e monocalibro, ciò consente di poter creare un'infinità di combinazioni di posa in base alla superficie oppure alle cadenze di colore o, ancora, arricchendo ogni singola superficie con il decorato.

The 4 different textures presented - Cemento, Roccia, Slate and Riga - in the 3 different colours of Perla, Grigio and Antracite and a patterned tile for each colour, create a collection of 15 items in size 20x20 cm.

Textures

Cemento - a classic in ceramic, reappearing here in an unusual size. The texture has a strongly material quality in which semi-rough concrete almost takes on the look of stone

Roccia - an embossed, ridged surface transforms the ceramic into a rock-like material.

Slate - from nature to ceramics, reproducing the natural flaking of slate.

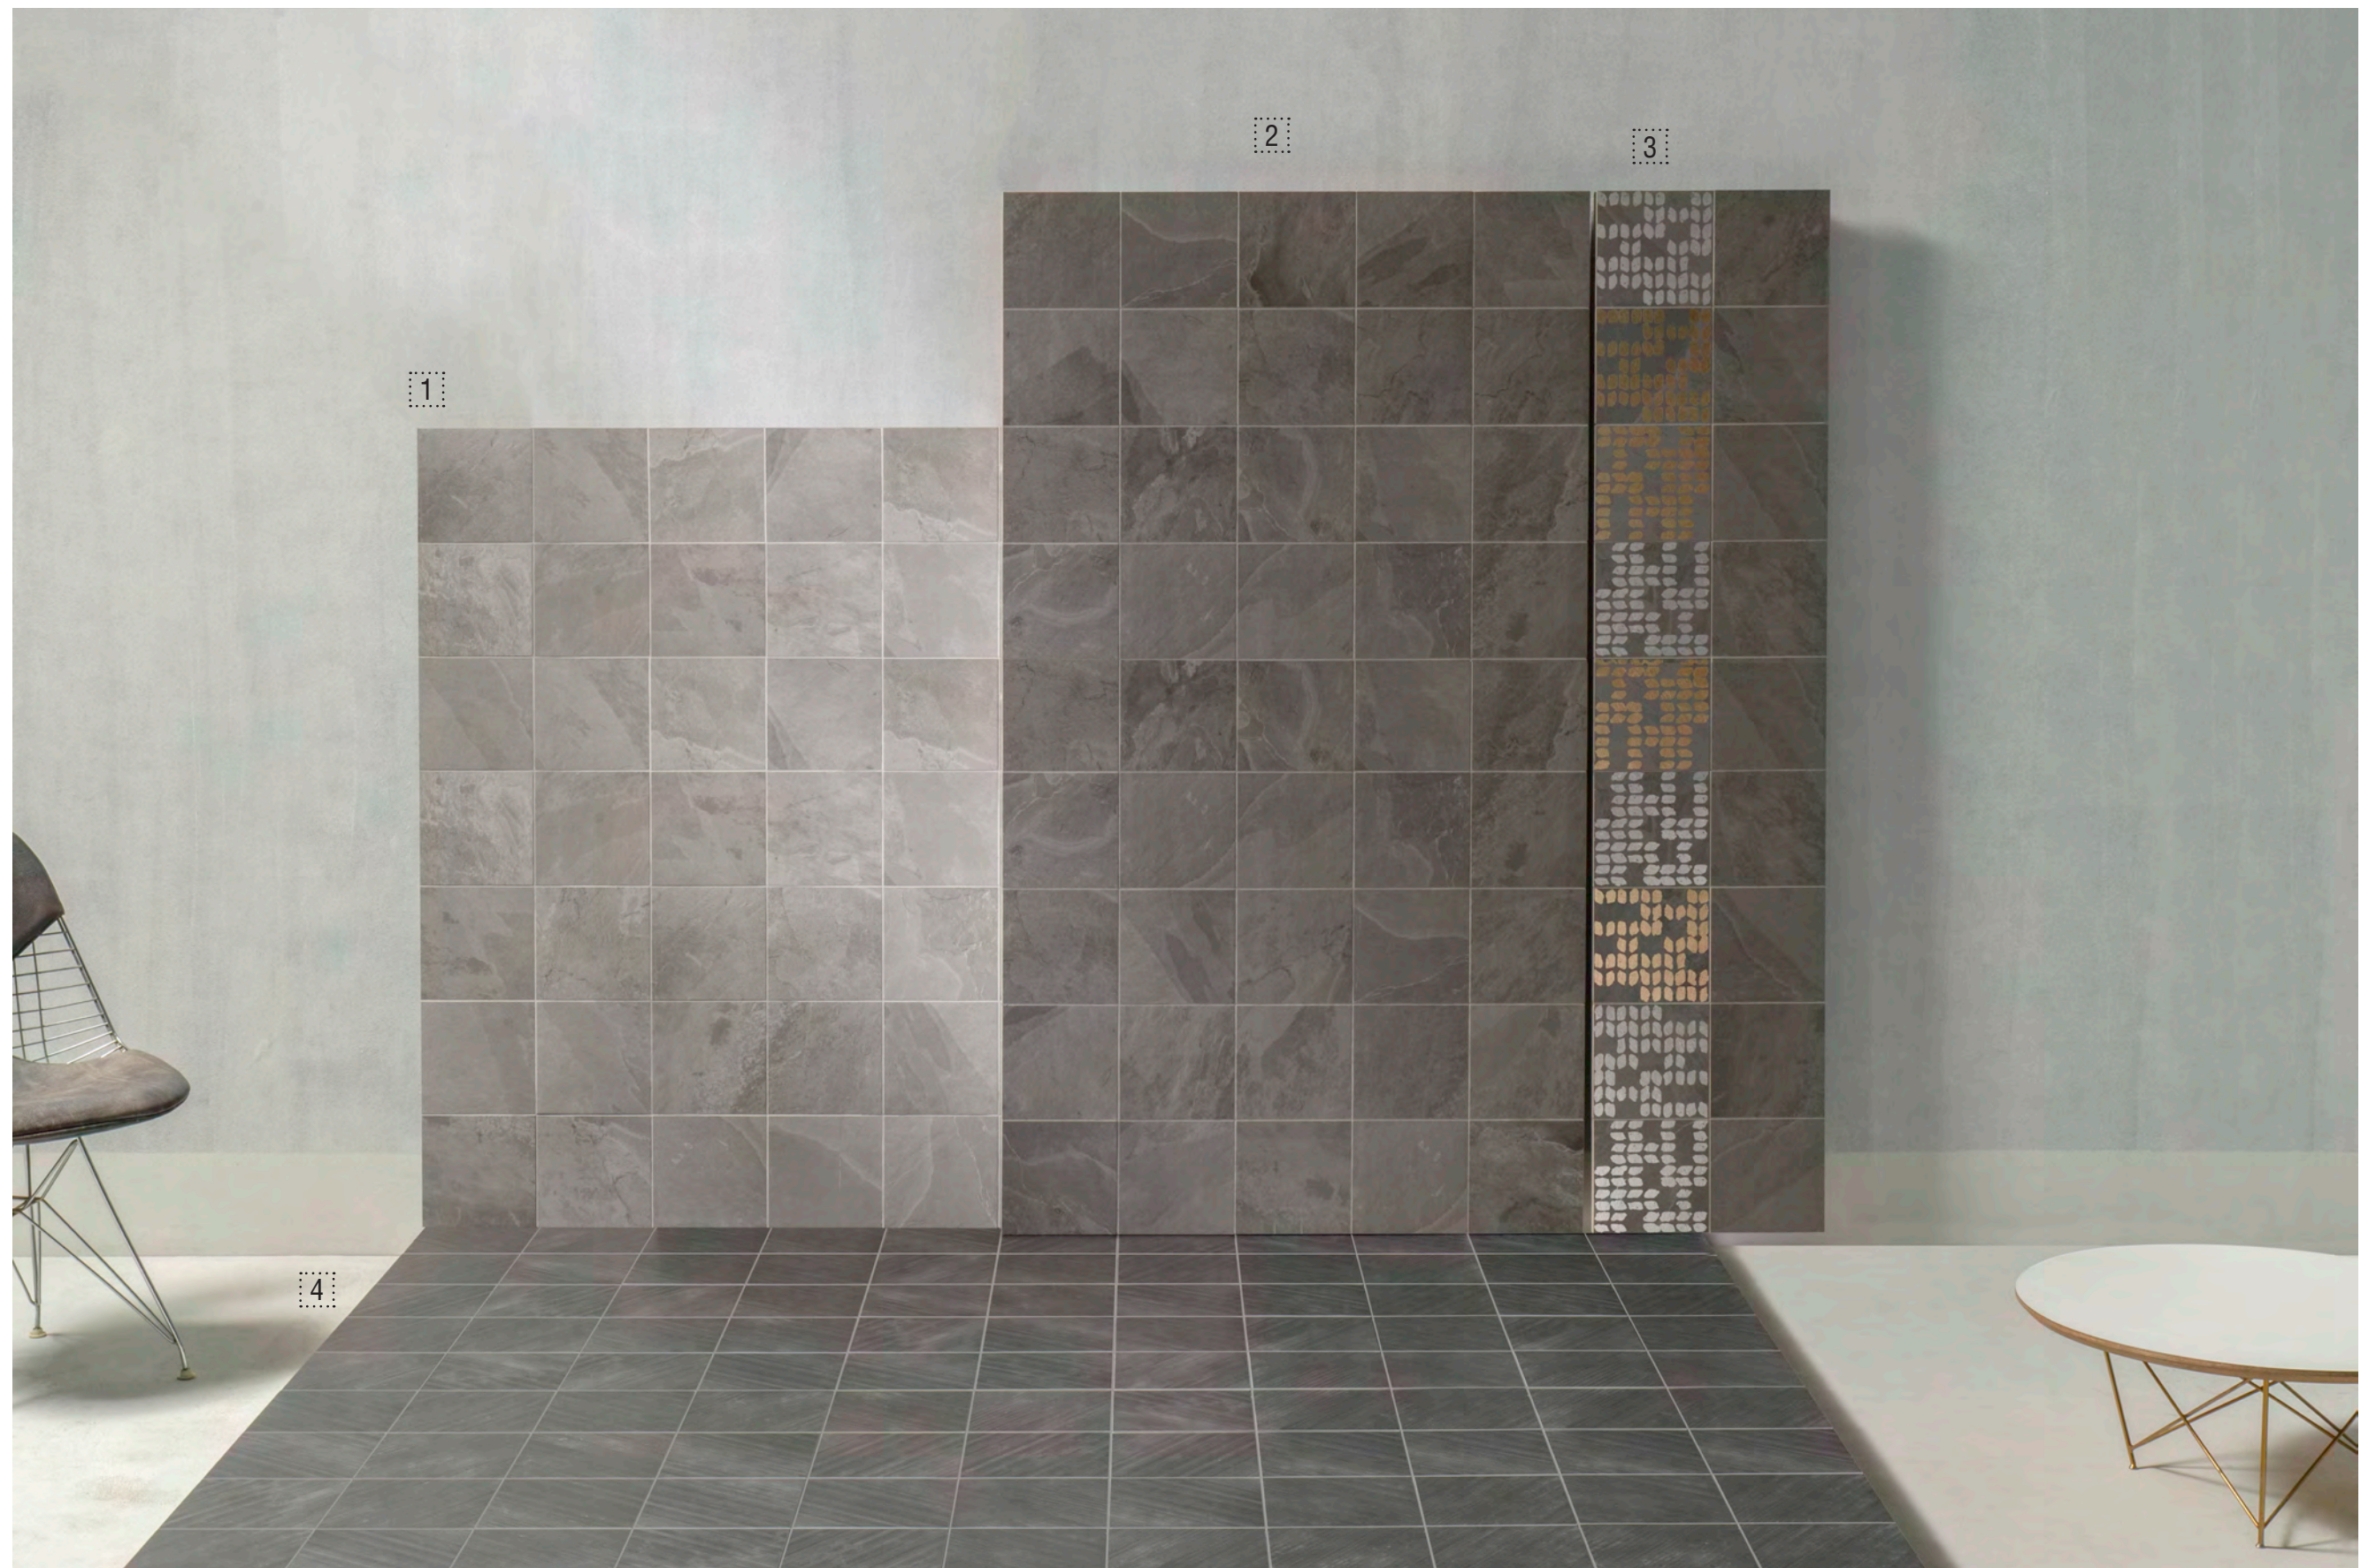

Riga - a contemporary, embossed texture with irregular grooves across the surface, creating a linearity that enables countless different laying solutions to be envisaged.

Colours

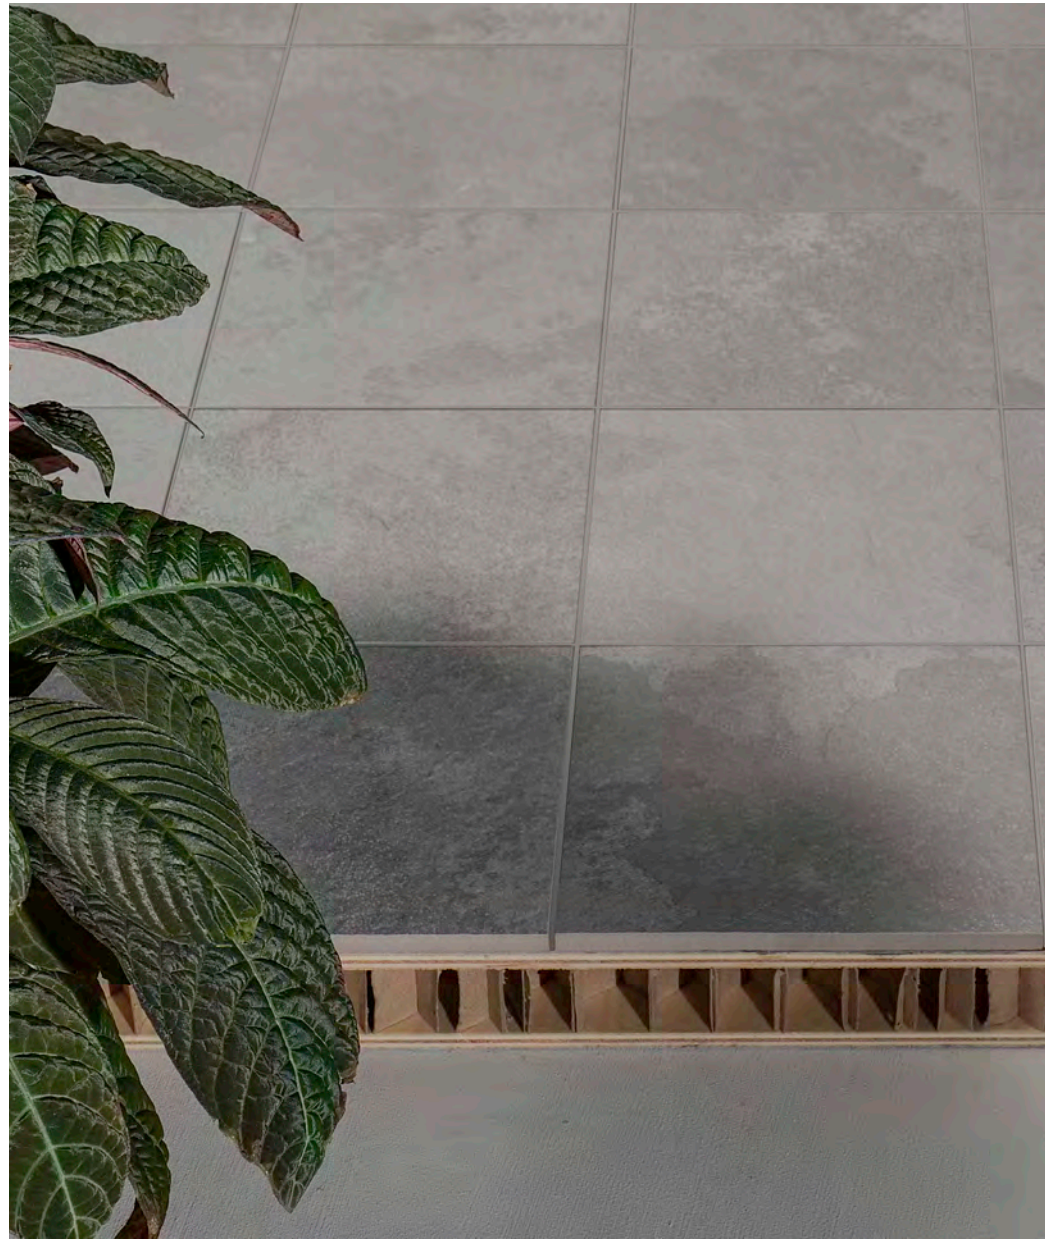

There are 3 colours - Perla, Grigio and Antracite - which are in turn divided into 4 variants according to the texture one chooses to express, creating 12 different items.

Size 20x20 cm.

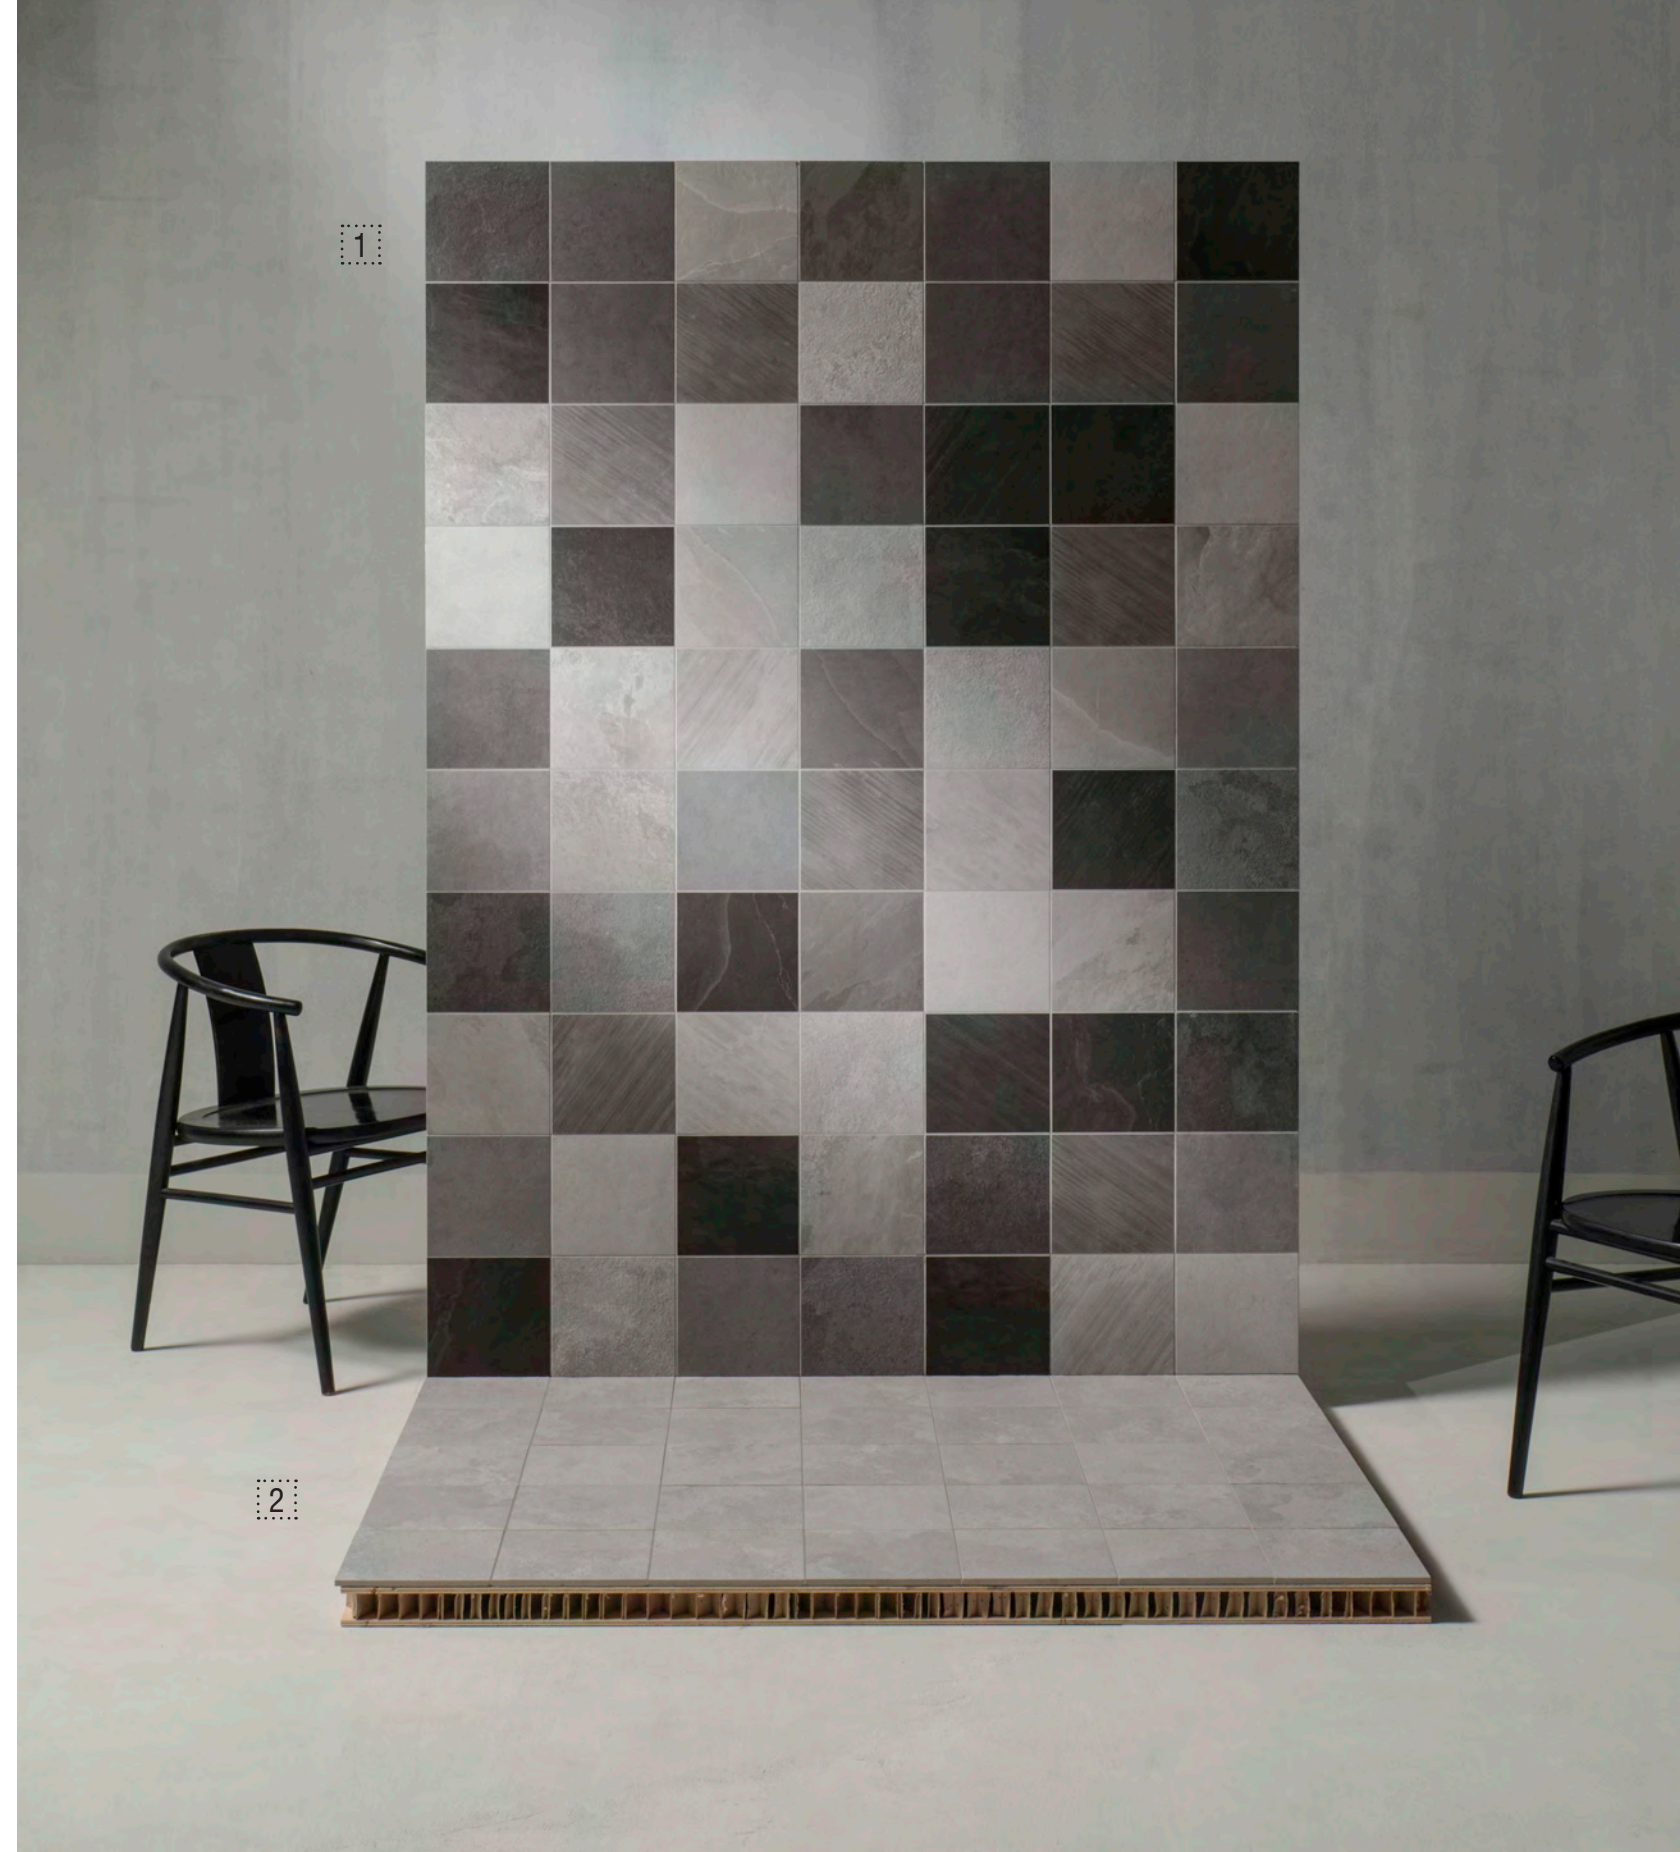

All the items in the collection are rectified and monocaliber, which allows infinite laying combinations to be created, based on surface or on colour shades or, again, by enhancing each individual surface with the patterned tile.
