BETTE

Modern design for all requirements ¹

The **BetteSelect** bath series combines clear, tasteful design with a high level of comfort, flexibility and abundant creative freedom. At an attractive price. Like all our products the BetteSelect series is made exclusively in the natural materials glass and steel. The result? Our high-quality products in glazed titanium steel last longer than other materials and are the best choice for the bathroom. Which comes with our 30-year guarantee.

Dirt and bacteria are unable to adhere to the glass-hard, non-porous surface of our BetteGlaze®. And what makes it all even easier: all our bathroom products are unbeatably easy to clean and care for. Thanks to their robust and hard-wearing properties, they are ideal for the requirements in residential and commercial construction projects.

2

Elegance to the
power of two.

3

BetteSelect Duo

The Duo version is the perfect bath for two. The symmetrical shape and the two comfortable backrests guarantee a perfect relaxation experience. The central position of the outlet makes it particularly comfortable for bathing à deux.

The all-rounder for bathing and showering.

4

BetteSelect

Key features of the single bath are the elegant shape with the striking head and foot end and comfortable backrest. Thanks to the offset position of the outlet, it can also be used as a shower with a generous standing area. You can choose between having the overflow on the side or at the foot end.
